Technical Skills

- **Programming:** C++, Java, Python
- **Core CS:** Data Structure & Algorithms, OOPs, Operating Systems, DBMS
- **Database:** MySQL, MongoDB (Indexing, CRUD Optimization)
- **Backend & Systems:** REST APIs, JDBC, Authentication, Modular Routing
- **Tools & Platforms:** Git, Postman, Linux (basic CLI)

Projects

Goal Ledger – A Daily Goal Tracker Web Application | Live — Feb '25 –Present

- Designed modular REST architecture with structured route separation and middleware validation to ensure maintainability and request integrity.
- Structured modular routes and models for maintainability and ease of future expansion.
- Integrated token-based authentication and access control to prevent unauthorized data access.
- Deployed via vercel with a fully responsive mobile-first design, functioning as an installable web app on Android.
- **Tech:** HTML, JavaScript, Tailwind CSS, React.js, Firebase, API Integration.

FitCoach AI – AI-Powered Fitness Tracking & Coaching Platform| Live — Mar '26 – Present

- Architected a full-stack fitness tracking system with **user-specific data isolation**, resolving shared-data issues across devices using secure authentication and database-level access control.
- Built an **AI-driven coaching assistant** integrating LLM APIs, enhancing response accuracy by restricting outputs strictly to real user statistics and contextual history.
- Engineered backend APIs with **authenticated request validation**, eliminating unauthorized data access by passing JWT tokens and enforcing user context in every operation.
- Diagnosed and fixed **runtime crashes caused by null/undefined data**, implementing defensive rendering and consistent API response structures.
- Diagnosed and fixed **runtime crashes caused by null/undefined data**, implementing defensive rendering and consistent API response structures.
- **Tech:** Next.js, React, Supabase (PostgreSQL, Auth, RLS), Groq API (LLM), REST APIs, Vercel

Training

Java Application Development – Summer Training — LPU | Link — Jun '25 – Jul '25

- Developed **a GUI-based Quiz Application** using **Java, Swing, AWT,** implementing MCQs**, 15-second countdown timer,** and **a 50–50 lifeline** feature with real-time score evaluation.
- Applied **OOP principles, event handling,** and **graphics rendering**.
- Integrated **JDBC** for structured database communication.
- **Tech:** Java, Swing, AWT, JDBC

Certifications

- Cloud Computing – NPTEL | Link — May '25
- Mastering Generative AI – INFOSYS | Link
- Full-Stack Web Development – Udemy | Link — Dec '24

Achievements

- Solved **300+ DSA problems** across arrays, trees, graphs, dynamic programming, and greedy algorithms — Nov '25
- **Finalist** at Coding Ninjas Binary Blitz National Hackathon. — Feb '24

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.1*** — Aug '23 - Present
- **Global Public School** — Kota, Rajasthan
  Intermediate; ***Percentage: 65.8%*** — Apr '19 – Mar '20
- **M.K. DAV Public School** — Daltonganj, Jharkhand
  Matriculation; ***Percentage: 94.8%*** — Apr '17 – Mar '18
